

Adrian Velazquez

Junior Front End Web Developer - Digital Technologist

755 East 221st Street #2f
Bronx, NY 10467
(727) 480-3173
hire_adrianV@yahoo.com

WORK HISTORY

Droga5, New York, NY — Junior Interactive Web Developer, April 2015 - May 2017

Developed web pages, websites, and banner ads within w3c standards using JavaScript, js frameworks, js libraries and other technologies such as; jQuery, Greensock.js, html5, css3, npm, node.js, gulp.js, bootstrap and wordpress. Unit tested and iterated through code in chrome dev-tools.

Used Adobe Creative Suite software for implementing design compositions and Atom.io, GitLab, and doubleclick studios for development and publishing of projects. Utilized Photoshop and other compression software for image retrieval and management, and asset optimization.

Developed primarily in the browser with Google Chrome as lead and others for compatibility using Atom.io, along with terminal, ftp and devtools. Utilized the use of code reviews, task management software, project tracking, creative feedback, and development iterations.

EDUCATION

University Of Rhode Island, RI - Certification in Print Media and Web Development, January 2011 - June 2011

Full Sail University, FL - B.S. in Web Design and Development, August 2012 - February 2015

Full Sail University, FL - M.S. in Business Innovation and Entrepreneurship, August 2017 - August 2018
